

HMO/MEDICAL EXCESS

Customized risk solutions that fit your business.

As healthcare reform continues to bring new challenges and opportunities, it's hard enough to keep up with the changing landscape, let alone to manage the risk. The coverage you had in the past may not be appropriate to carry your business into the future.

Summit Re looks at the big picture to help our customers assess their catastrophic healthcare risks, and then we develop a plan to address them. From alternative excess reinsurance coverage designs to more sophisticated reinsurance risk transfer approaches that focus on the efficient use of capital, our customized solutions outdistance typical marketplace options.

Why work with Summit Re?

In today's rapidly evolving healthcare marketplace, the partner you choose to help mitigate medical excess loss has to be flexible, adaptable, and forward-thinking. Summit Re not only understands healthcare risk, but we've also built our reputation on crafting dynamic solutions that accomplish each client's specific goals. Our success depends on your success.

We're in this together.
